

A Subsidiary of Garland Industries

X-IE 6-50 PH52

DESCRIPTION

This specialty fastener is used for fastening any of GMX, Inc. barriers insulation board products with a powder actuated Hilti nail gun. The X-IE is pre-assembled to enable fast, reliable fastening of any self-supporting or non-self-supporting insulation material. This fastening system is designed for 2" thick insulation products and has a 60mm diameter head that is textured to accept fire retardant mastic when required. No other pin/washer combo performs like the X-IE.

Use the X-IE to increase your profitability by reducing your time on the job and increase the longevity of your system by reducing nail pop outs. The X-IE is just one part of the DryDog Barriers Closed Crawlspace system. Sold in cases of 300.
